

LIGHT OF FUTURE SCHOOL
Kratie Province

6-monthly Report 2016
January - June 30th 2016

CAMBODIAN CARE'S LIGHT FUTURE SCHOOL

**Kratie Province
6-monthly Report 2016**

Our statement of commitment

Building basic quality education programs for unprivileged children in underprivileged areas of Cambodia

Vision:

Every child reaches their own fullness of life and becomes a member of the family of God

Executive Summary:

Kratie or Kraches is a province of Cambodia located in the northeast. It borders Stung Treng Province to the north, Monduliri to the east, Kompong Thom and Kompong Cham to the west, and Tbong Khmum Province and Vietnam to the South.

- Area 11,094 km²
- Population 318,523 (2008 census)

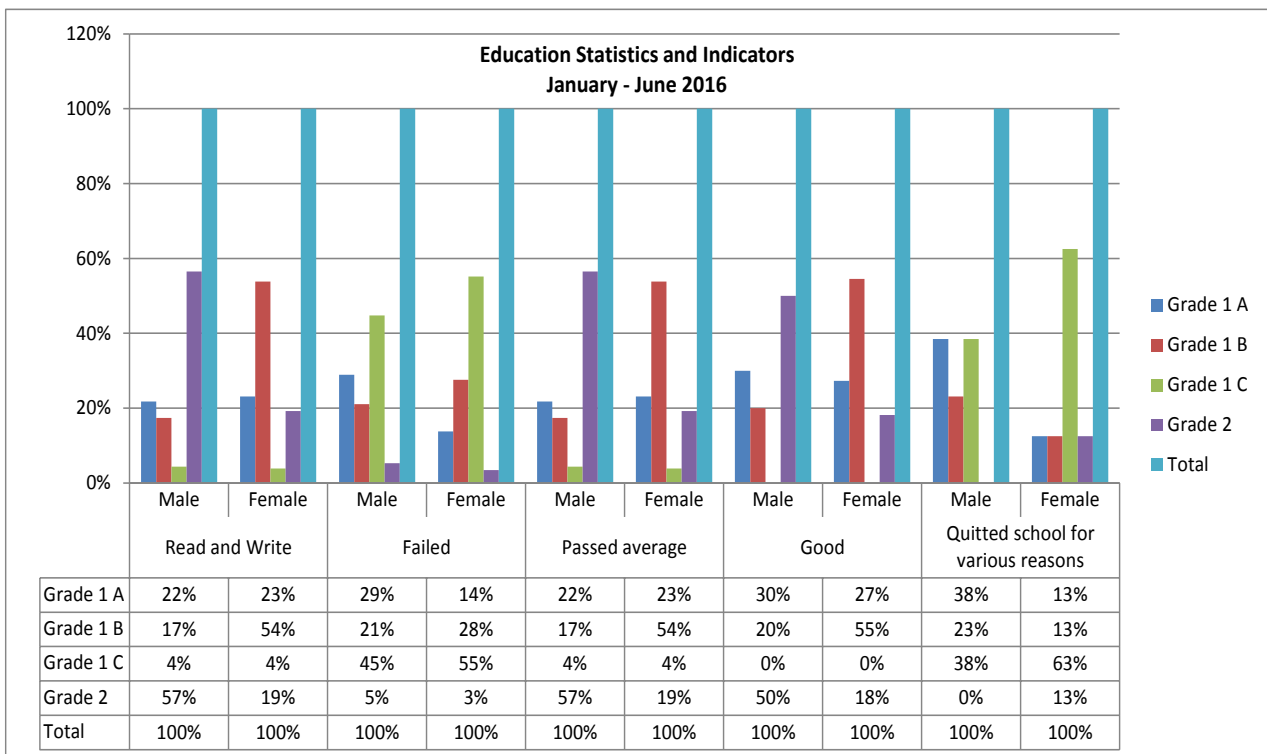

Koi Village is consisting of 80 families which it locates in Khsem commune, in Snoul district, Kraches province. It will take 5 hours to drive from Phnom Penh city to this village crossing Kandal and Kompong Cham province. Most of the people who have been living in this Koi village are planting rice during the period of month of June to August (planting process) and harvesting period is from December to January of the year. Beside, planting rice crop, they are hunting forestry for livelihood and some commute from their village to other villages work as laborer of pulling potatoes and other work.

In Koi village, people are facing malaria infection and spread during the rainy season while other diseases are common happening in this village such as: dengue fever, diarrhea, common cold, fever. There are not so much water resources except they are living by depending on rainwater. There are only few small streams which these people are able to get water from for their daily family consumption.

Many children have been suffering from basic formal quality education, because Koi village has no government school. Most of them are not able to attend school regularly because of long distance, and sometimes teacher(s) are not showing up in class on a regular basis. Most of these children are attending grade 1 to grade 3.

1. EDUCATION PROGRAM (LIGHT OF FUTURE SCHOOL)
2. NUTRITION PROGRAM
3. CHARACTER DEVELOPMENT TRAINING PROGRAM
4. INCOME GENERATION SOLUTIONS

Description	Grade 1 A		Grade 1 B		Grade 1 C		Grade 2	
	Male	Female	Male	Female	Male	Female	Male	Female
# of Student	17	10	12	22	18	17	15	9

# of students who passed average	5	6	4	14	1	1	13	5
# of students who failed	11	4	8	8	17	16	2	1
# of students who are good	3	3	2	6	0	0	5	2
# of students who quitted school of various reasons	5	1	3	1	5	5	0	1
# of remaining students	12	9	9	21	13	12	15	8

NUTRITION PROGRAM

We provided all students with soymilks, vitamins, deworming and health education for 116 children. The mobile clinic is planned to open to serve the community people who cannot access to proper health providers and services. Many children and adults have been sick of preventative and curable diseases, sometimes they can be killed such the normal diseases if without good healthcare and services. The main purpose of this is to care for these underprivileged children and adults to grow healthy physically, emotionally and spiritually. They need nutritious supplementary food to help their bodies grow healthy. It is helping to be able to learn and grow mentally.

CHARACTER DEVELOPMENT TRAINING PROGRAM

This program is part of the national curriculums of Cambodian government school. To education and train teens to be able to operate in life with skills and keep their high moral as a part of citizenship. Once every week, we're training those teens from different perspectives of religious views, especially looking at biblical values to learn and to live in everyday life-living.

INCOME GENERATION SOLUTIONS

Cambodian Care will eventually plan to have self-sustaining for all its school programs. Here some future and current implementation of income generation solutions:

Our current implementation in term of income generation plans

1. Cambodian Care's School Tuolpongrror Program has been reducing some school uniforms by increasing the ownership of parents to take care of these expenses
2. Cambodian Care's School Tuolpongrror Program will continue reducing school materials each year by increasing the ownership of parents of those students. Those school materials such as: text books, writing books, pens, pencils and others related to school.
3. Cambodian Care's School Village 2 (Train Track) and Kratie School Program has been informing all parents about the possibility of contributing fees to help running this school

Our future implementation in term of income generation plans

1. Cambodian Care will setup sewing/tailoring projects with at least two specific purposes:
 1. Providing skills and job employment for underprivileged parents or single mom
 2. Generate income to support all Cambodian Care's School Programs.
2. Eco farming implementation with all our possible school premises of Cambodian Care

Impacted Story

"I am so happy that I can attend this school. I like learning and my teacher" said of Leakanak. I have 10 siblings, but only 3 of us are learning at this school. I like to play with my friends at school. My parents are so happy to send us to this school, because it is in our village. I am learning in grade 1 and I am 13.

"I don't want to my children to miss this school, because it has the teachers to teach everyday. If I am too busy at the field, I still don't want my children miss it. I will make sure they are in school." Said Leakanak's father.

I like reading and learning Khmer. When I grow up I want to be a teacher in this school to teach my village people.

I like learning Khmer lessons, math. I like reading stories. I am so happy that I have a good school in my village. I don't need to travel long distance to another. I am Srey Yoeun, I have 6 siblings. I study in grade 1 and I am 12. *"I have learned well since I attended this school. The teachers are always showing up constantly" Srey Yoeun said.*

I want to be a school teacher to help my village when I grow up. I like to eat Khmer sour soup (Sam Lor Ma Choo).
