

Reaching One Child at a time by the Love of God

## Light of Future School - Toulpongror

Volume 1, Issue 5

March 2015

**Kids enjoyed their art class**

Those children dropped out school, because of poverty situation in their families.

Cambodian Care's Light of Future School(s) has opened for several months in response to the needs of providing quality education program by using Cambodian government curriculum to support those unprivileged children to be able to get their proper education while they are at their young age. One of the Cambodian Care's Schools where it is locating in Tuolpongror village has been actively serving and educating 200 children from grade 1 to 4. All education programs provided by Cambodian Care is to focus on first quality driven. Cambodian Care has been actively working and currently searching for other three places where the schools could be opened to support those children who are in need of education program.

## Nutritional Program

At Cambodian Care, we are passionately about reaching the poorest communities throughout this nation. Providing the poor and leading with compassion are both at the forefront of our organization. Our nutritional program that is in action helps to add vitamins to hundreds of students in Tuolpongror villages. When we are active in the community we give basic necessities that these families surely do not take for granted. We provide rice, milk, deworming pills, instructions on how to wash hair and brush teeth. It is our goal to empower these communities with this program. It is said, "Give a man a fish and you feed him for a day. Teach a man to fish and you feed him for a lifetime." Reaching for life-time impact.

## Impact Story

A child in white shirt in the photo with [Koy Chhim](#) has been suffering for his education is that he is one of the active supporters to sustain his family by providing his labor to shepherd ducks for a private family in the village. He learned that Light of Future School of [Cambodian Care](#) are coming into his village, and he thought he would never be able to attend this school because of his poverty situation in his family. *"I thought I'm not allowed to attend your school" Samphors said.*

He is told that you're very welcome to be one of these students and you can come tomorrow for your school.

*"He looked at me with his emotional eyes, and said, thank you for allowing to attend this school" Samphors said.*

Samphors is now attending LIGHT OF FUTURE SCHOOL TUOLPONGOR VILLAGE at grade 2 with a monthly support from Cambodian Care to allow him to have full everyday school attention by distracting him anymore of child labor, because of poverty of his family.

## Here are various ways you can help us

- Leasing one year contract 1170USD for First school
- Sponsor a child 25USD a month to get quality education
- Sponsor a teacher 170USD a month to deliver quality education service
- 3 motorcycles to be used for these two schools 2250USD
- Buy 50 kg of rice for 30USD for nutrition program to support those children in our schools
- Adopt one of our school projects or other projects
- Used laptops could also be donated to our schools.
- Local and international volunteers also can sign up to help our schools.
- Bring short term medical team
- Bring short term building project team
- Buy us chairs, tables, books, pens, pencils or other related to schooling
- Finance us to setup library for schools
- Help promote what we are doing to your friends, churches, and other groups.
