

Reaching One Child at a time by the Love of God

## Light of Future School - Toulpongror

Volume 1, Issue 6

May 2015

**Kids took their exams!**

Light of Future School Tuolpongror is one of the 1#school(s) which is currently having and serving 201 students in this Toulpongror village. The majority students population are from grade 1 to grade 2 while others are studying from grade 3 to 4. Due to the majority of needs of having quality education in this community, Cambodian Care Light of Future School Tuolpongror Village is continuing to open for more unprivileged children to have access to education.

By now, our #1 Light of Future School Tuolpongror Village is having other 30 students in our waiting list.

It is still a big challenge for Cambodian children, especially for unprivileged children in the poorest communities or in the remote areas are unable to have access to basic quality education services. While the government schools are having its challenges in term of resources to keep up with the huge needs in the area of education (source: <http://www.rfa.org/khmer/news/social-economy/high-school-in-stungstreng-no-teacher-04212015003329.html>) This is why we do what we do at Cambodian Care to help contributing to the development of education program with the Royal Government of Cambodia. Our goal is to open 200 schools!

## Nutritional Program

Nutrition Program is one of our core components of Cambodian Care is to provide children with health awareness and education in all areas where Cambodian Care has been actively operating. Aside from providing health education, we are proving supplementary nutritious food, vitamins and other appropriates meds to all children so that they stay healthy physically. We are thinking of opening a small clinic within each school of Cambodian Care in the future to provide the community more in depth of health basic treatment. Basic health education is also still the challenge for this poor community to be able to stay away from all contagious diseases. All of our students are receiving heath education and supplementary of food and vits

## Impact Story

Bunthon is the oldest in his family, the most athletic of his friends, and his dad is the chief of the village. This means this 14 year old has great influence in the small village known as Toulpongror. Buntun likes school which is very near to his home. He used to have hard time to go to school and sometimes, he himself and his siblings missed school because of the long distance.

*"I want to say a big thank you to Cambodian Care for having the school in my village, and not only me, but helping other children like me to have a proper school" Said of Bunthon with a big smile.*

Bunthon is quiet and always soft-spoken, and gentle, he is one of the school builders from the very beginning with our #1 Light of Future School. He is a hardworking student. His smile is bright and his future is brighter, we can't wait to see Bunthon continues to grow as a leader in the future.

## Here are various ways you can help us

- Leasing one year contract 1170USD for First school
- Sponsor a child 25USD a month to get quality education
