

Reaching One Child at a time by the Love of God

LIGHT of FUTURE SCHOOL

Volume 1, Issue 3

November 2014

Day 1 of School Opening

On the first day of school opening is a big highlight of each child who is living in the slum area. Each child's face is full of joy, happiness and hope for they've never thought of the school is able to come right in the middle of their village. 150 kids by this November, 2014, children are receiving quality education from Light of Future School. Grade 1 to grade 4 are very busy with all the students are attending. Each parent and the entire

community is very glad to see the school is running so fast, especially following the Cambodian Government's curriculum, so that their children are able to keep up with the Cambodian government school. Cambodian Care is highly committed to serve every child who is neglected, not cared for, and not be able to get their proper education, because of their various problems in their families. Each child is very valuable!

Active learning

TEAMWORK MAKES THE DREAM WORKS

One of the most remarkable things of Cambodian Care's Light of Future School is that we've got the kids helped building the foundation of the school, the community people help laying the concrete for the school without paying, and we've got the quality and experienced teachers just in the right time. We totally understood the principle of working together to achieve a common goal is so important to move the big vision of Cambodian Care forward. It's not by an accident that every action is lining up here at Cambodian Care's first school, but it's a miracle! Everyone is participating in this and joyously contributing without expecting things back.

Teen Leadership Development Program

Teen Leadership Development/Discipleship Program is of the 6 core programs of Cambodian Care. We believe that every teenager has the great potential to change Cambodia positively when they are reaching their potential. The whole idea of this program is to help them grow in character, moral and skills to live and to lead from where they are to where they are called. We are launching this program on the following first week of this December, 2014. We're only taking 30 students to be in this one-year program. Until now 20 students from the communities where Cambodian Care 's been active in already have signed up with us.

We will provide leadership materials for these students, one meal, transportation and celebration when they are all graduating at the end of the course. The training will be held once every week. We would like you to think of us and how you can get involved in this program by various ways of supporting us.

Here are various ways you can help us

- *Leasing one year contract 1170USD for First school*
- *Sponsor a child 25USD a month to get quality education*
- *Sponsor a teacher 170USD a month to deliver quality education service*
- *3 motorcycles to be used for these two schools 2250USD*
- *Buy 50 kg of rice for 30USD for nutrition program to support those children in our schools*
- *1 new pickup truck 36,500USD for Cambodian Care*
- *Adopt one of our school projects or other projects*
- *Used laptops could also be donated to our schools.*
- *Local and international volunteers also can sign up to help our schools.*
- *Bring short term medical team*
- *Bring short term building project team*
- *Buy us chairs, tables, books, pens, pencils or other related to schooling*
- *Finance us to setup library for schools*
- *Help promote what we are doing to your friends, churches, and other groups.*
